One of the large, influential cor-porations in the country is taking this means of announcing a limited number of openings in the New York Office of its Fniancial

The character of the company and the impelling nature of the opportunity are attested by the fact that we have in our sales department to-day a number of men who resigned important executive positions in some of the largest and oldest companies in the country paying them salaries ranging from \$7.500 to \$10,000 per year. Where formerly their companies fixed their earnings, they themselves now determine their own compensation through their commissions.

One of them was the Production Manager of a well known manufacturing corporation. Another was the Assistant Comptroller of one of the largest corporations in the country. A third was the Executive Associate of the president of a corporation of world wide scope and reputation.

The advantage of associating with a company whose personnel numbers such men as these is open at this time to a few men who either are successfully selling. who either are successfully selli or who have definately decided take up the Salse Calling.
